

THE PROCESS

Complete wall components are built under quality and climate controlled conditions. Computerized cutting and marking provides better detailing, improving durability and air-tightness. This exacting process results in:

- Improved quality product
- Built 40% faster than site built homes
- Faster occupancy for home owner
- Enhanced Design Flexibility

East Coast Panelized Wall Systems is led by president, Tim Clattenburg. Tim is a Certified Residential Builder who has 20+ years of experience and customer satisfaction in the Residential Building Industry in Nova Scotia. He is committed to:

- Quality, safety and customer satisfaction
- Guaranteed pricing and delivery
- 24/7 communication
